40 CFR Part 52

[EPA-R01-OAR-2009-0451; FRL-9908-53-Region 1]

Approval and Promulgation of Air Quality Implementation Plans; New Hampshire; Reasonably Available Control Technology for the 1997 8-Hour Ozone Standard

AGENCY: Environmental Protection Agency (EPA).

ACTION: Correcting amendments.

SUMMARY: The Environmental Protection Agency (EPA) published a final rule for New Hampshire regarding reasonably available control technology for the 1997 8-hour ozone standard in the Federal Register on November 5, 2012. An incorrect date was identified and is corrected in this action.

DATES: This rule is effective on **[Insert date 30 days from date of publication in the Federal Register]**.

FOR FURTHER INFORMATION CONTACT: Bob McConnell, Air Quality Planning Unit, U.S. Environmental Protection Agency, EPA New England Regional Office, 5 Post Office Square, Suite 100 (mail code: OEP05-2), Boston, MA, 02109-3912, telephone number (617) 918-1046, fax number (617) 918-0046, email mcconnell.robert@epa.gov.

SUPPLEMENTARY INFORMATION: In a final rule dated November 5, 2012 (77 FR 66388), the table in paragraph (d) of § 52.1520 incorrectly listed, within the third column of this table, the state effective date for the Waste Management order as 8/26/2002. As noted in the first column of page 66394 of this notice, an updated order was submitted for this facility, and it is the updated order that we approved in the November 5, 2012 action. The updated order, submitted on August 2, 2012, has a state effective date of April 27, 2012. This action corrects that error by inserting the correct date of April 27, 2012, into the table in paragraph (d) of § 52.1520, as follows:
